Job Description				
POST:	Consultant in Public Health/Consultant in Public Health Medicine			
	One year fixed term contract – full time			
GRADE:	NHS Consultant or NHS Agenda for Change Scale 8d or Local Authority Senior Manager			
RESPONSIBLE TO:	Director of Public Health			
RESPONSIBLE FOR:	Public Health Specialist (long-term conditions) and Public Health Specialist (integrated care and knowledge management)			

BASIC OBJECTIVES OF THE POST

Working in one of the most ethnically and culturally diverse boroughs in the UK and based in the local authority, this post encompasses a range of challenges and opportunities to improve the health of the population, with a focus on health protection, the integration of health and social care, health intelligence and evidence-based healthcare commissioning.

This senior public health appointment will lead, on behalf of the Council, on providing support to the Haringey Clinical Commissioning Group (CCG) on health and social care commissioning; 'core offer' and improvement of the quality of primary care, a key priority for the borough. They will lead on ensuring that the plans are in place to protect the health of Haringey's population. The appointee will be a strong advocate for public health and reducing health inequalities locally and be able to draw on their experience of planning and implementation of strategic public health programmes.

Health and social integration develops apace – locally there is a strong appreciation of the public health input to this process. The postholder will therefore lead the public health support to the strategic development, commissioning, delivery, evaluation and performance management of programmes and services designed to integrate health and social care locally. As well as working at Haringey level, the postholder will be expected to provide input and leadership on prevention and improved long-term condition management as part of the Haringey and Islington Wellbeing Partnership (a developing local integrated care partnership) and, where opportunities arise, as part of the North Central London Sustainability and Transformation Plan.

The postholder will be expected to deputise for the Director as required, and will be expected to be able to cope with multiple and changing demands, and to meet tight deadlines.

A high level of technical skill and intellectual rigor, mixed with political awareness, negotiation and motivation skills and flexibility are required. The post holder will deal with complex public health issues, advise the Health and wellbeing board and make recommendations regarding services, patient care and wider determinants of health. A high level of tact, diplomacy and leadership is required and an ability to understand other cultures, advise, challenge and advocate to enable effective working across organisational boundaries and influencing without direct authority.

MAIN DUTIES & RESPONSIBILITIES

The role is to lead on the healthcare public health and health protection on behalf of Haringey Council. The main duties and responsibilities are as follows:

- Leading the public health support to the development and implementation of national, regional and local policies in relation to health and social care integration and development of inter-agency and interdisciplinary strategic plans and programmes with delegated Health and Wellbeing Board or the Council's authority to deliver key public health targets and improve health outcomes at the local level;
- Provide input and leadership on prevention and improved long-term condition management as part of the Haringey and Islington Wellbeing Partnership and, where opportunities arise, as part of the North Central London Sustainability and Transformation Plan.
- Lead on the development and implementation of a range of pathways for long-term conditions across the local health and social care economy and ensure that prevention component is well embedded;
- Provide leadership on the 'core offer' to the CCG;
- Work closely with the Health Intelligence Team and primary care intelligence resources to ensure that the evidence base for commissioning is utilised fully;
- Lead the council's support to improving primary care quality in the borough
- Work closely with NHS England and Public Health England Local Health Protection Teams to ensure that plans are in place to deliver national screening and immunization services responsive to local needs;
- Work with the CCG and primary care to develop local plans on health protection such as cervical screening, seasonal flu or pandemic flu plan;
- Provide expert public health advice and leadership to support and inform an evidence-based approach for commissioning and developing high quality equitable services across primary, secondary and social care, and across sectors including local authorities, voluntary organisations etc. This will include evidence-based reviews for Individual Funding Requests, as part of the 'core offer';
- Management of staff and support training of trainees, including Specialty Registrars in Public Health;
- Monitoring and contribution to the formulation of Health Protection/Healthcare Public Health budgets and other financial duties;
- Understanding and commitment to promoting and implementing the Council's Equal Opportunities policies.
- To undertake any other temporary duties consistent with the basic duties and/or objectives of the post.
- The postholder will deputise for the Director as required
- Commissioning research audits/projects, *and/or* undertake research or audit and translate research findings into public health practice.
- Understanding, knowledge and ability to follow guidelines that ensure compliance to Health and Safety at Work, Data Protection and other statutory requirements.

- Health and Safety aspects/issues, first aid/manual handling etc in relation to working environment, ie Hazardous materials and relevant processes/legislations etc
- Knowledge and experience of using IT/working knowledge adequate or sound knowledge required etc

CORE COMPETENCY AREAS

Surveillance and assessment of the population's health and well-being

- To ensure the proper design, development and utilisation of information and intelligence systems to underpin public health improvement and action for the population across disciplines and organisations.
- To receive, interpret, provide and advise on highly complex epidemiological and statistical information about the health of populations to the Local Authority, NHS and voluntary organisations.
- To ensure the use of the best available evidence base to support the assessment of health needs, health inequalities, health impact assessment and the identification of areas for action within the local population.
- To write and/or contribute to national and local policy forming reports on the health of the population of Haringey

Assessing the evidence of effectiveness of health and healthcare interventions, programmes and services

- To provide expert public health advice and leadership to support and inform an evidence-based approach within ethical frameworks for commissioning and to develop high quality equitable services, across primary, secondary and social care, and across sectors including local authorities, voluntary organisations and others, in potentially contentious and hostile environments where barriers to acceptance may exist.
- To be responsible for leading on service development, evaluation and quality assurance governance in specific areas and for preparing and adjusting action plans in line with changing needs and changing geographical boundaries.
- To provide expert advice to support evidence based commissioning, prioritisation of services for the population (and in some circumstances for the individual) in order to maximise opportunities for health.

Policy and strategy development and implementation

- To lead on behalf of the Haringey Council on the communication, dissemination and implementation and delivery of national, regional and local policies, developing interagency and interdisciplinary strategic plans and programmes, with delegated authority to deliver key public health targets.
- To act in an expert advisory capacity on public health knowledge, standards and practice, across the spectrum of public health at Board or equivalent level.
- To be responsible for the development and implementation of multi-agency long-term public health programmes as required, based on identification of areas of potential health improvement, the diversity of local needs and the reduction of inequalities.
- To ensure proper linkages between the health agenda and strategies related to the wider determinants including for example, community safety, the environment and sustainability.

Leadership and collaborative working for health

 To take the lead role on behalf of the Haringey Council in developing inter-agency and interdisciplinary short and long-term strategic plans for securing health improvement both in the general population and in vulnerable groups at high risk of poor health and reduced life expectancy, in partnership with a range of agencies such as those in the statutory, non-statutory, voluntary and private sectors and by taking lead responsibility with a defined local authority. This requires the ability to work cross-directorate and across other agencies and voluntary organisations.

- To work with primary care professionals and community staff to raise awareness of their public health role.
- To lead on the integration of health, social services and voluntary organisations to promote effective joint working to ensure delivery of the wider government targets.
- To influence external agencies in their public health policy decisions by working with complex professional, managerial and population groups and other organisations in the statutory, non-statutory and private sectors.

DEFINED COMPETENCY AREAS

Health Improvement

- To be responsible for designated areas of health improvement programmes, public health surveillance, population screening or geographical areas.
- To take a leadership role in specified areas with local communities and vulnerable and hard to reach groups, helping them to take action to tackle longstanding and widening health inequality issues, using community development approaches as appropriate.
- To provide expert knowledge to ensure effective community involvement with regard to all the work of the organisation including commissioning and prioritising high cost services and to ensure that policies and strategies are interpreted, developed and implemented at all levels.

Health Protection

- To take responsibility for safeguarding the health of the population in relation to communicable disease, infection control and environmental health, including delivery of immunisation targets.
- To take part in local arrangements and contributing to the on call rota for the effective control of communicable disease, environmental hazards to health and emergency planning, as detailed in local health protection agreements.
- To communicate effectively and diplomatically with a wide audience including the media and the public to change practice in highly challenging circumstances such as communicable disease outbreaks, chemical incidents, immunisation and screening.

Service Improvement

- To provide expert advice to support evidence based commissioning, prioritisation of health and social care services for the population (and in some circumstances provide highly specialised advice on preferred treatment options or protocols based on the evidence for individual patients) in order to maximise opportunities for health.
- To be responsible for implementation of NICE and National Service Frameworks or equivalent national standards, guidance and frameworks.
- To lead the developments of clinical networks, clinical governance and audit.
- To review evidence and provide highly specialised advice on preferred treatment options or protocols based on the evidence for individual patients.

Public Health Intelligence

- To analyse and evaluate quantitative and qualitative data and research evidence from a range of sources to make recommendations and inform decision making which has long term impacts.
- To compare, analyse and interpret highly complex options for running projects identified as key public health priorities, and communicate this information across organisations and the local community.
- To present, analyse and communicate knowledge in a way that appeals to diverse groups, influences decision-making and supports community engagement.
- To be responsible for the identification and implementation of appropriate health outcome measures, care pathways, protocols and guidelines for service delivery across patient pathways for the local population.

• To work with the information and intelligence are of Public Health England and other organisations to strengthen local, regional and national public health intelligence and information capacity.

Academic Public Health/ Research and Development

- To undertake and commission literature reviews, evaluative research surveys, audits and other research as required to inform equitable service and reduce health inequalities. This may involve taking the lead on R&D public health and related activities.
- To develop links with local universities to ensure the work of the organisation is based on a sound research and evidence base.
- To develop public health capacity through contributing to education and training and development within the Directorate, and within the wider public facing workforce.

Medically qualified members of the public health team are expected to play certain roles in medical leadership, in relationships with the medical profession and in bringing a medical perspective to public health advice. A medically qualified holder of this post would be expected to share these roles with other medically qualified members of the team.

MAIN CONTACTS

Postholder will be expected to liaise with a range of stakeholders:

- 1. Haringey CCG
- 2. NHS England
- 3. Public Health England North East and Central Health Protection Team
- 4. Voluntary Organisations
- 5. Barnet, Enfield, Haringey Mental Health Trust
- 6. Whittington Hospital
- 7. North Middlesex Hospital
- 8. Islington CCG
- 9. Islington Council

GENERAL CONDITIONS

Terms and conditions of service

NHS Consultant or NHS Agenda for Change Scale 8d or Local Authority Senior Manager – dependent on experience and qualifications; to be agreed with successful candidate.

On call arrangements

The postholder will be expected to be on call for health protection and public health and to participate in the communicable disease and environmental hazards control and emergency planning arrangements for Haringey Council. Suitable training will be provided for those who need it in discussion with the Health Protection Agency.

Indemnity

As the postholder will only be indemnified for duties undertaken on behalf of Haringey Council the postholder is strongly advised to ensure that he/she has appropriate professional defence organisation cover for duties outside the scope of the Haringey Council and for private activity within Haringey Council. For on call duties provided to other organisations as part of cross cover out of hours arrangements the Haringey Council has confirmed that those organisations will provide indemnity for the postholder. These arrangements may differ across the four countries.

Flexibility

The postholder may, with their agreement - which should not reasonably be withheld - be required to undertake other duties which fall within the grading of the post to meet the needs of this new and developing service. The employing organisation is currently working in a climate of great change. It is therefore expected that all staff will develop flexible working practices both within any relevant local public health networks and at other

organisational levels as appropriate, to be able to meet the challenges and opportunities of working in public health within the new and existing structures.

Confidentiality

A consultant has an obligation not to disclose any information of a confidential nature concerning patients, employees, contractors or the confidential business of the organisation.

Public Interest Disclosure

Should a consultant have cause for genuine concern about an issue (including one that would normally be subject to the above paragraph) and believes that disclosure would be in the public interest, he or she should have a right to speak out and be afforded statutory protection and should follow local procedures for disclosure of information in the public interest.

Data protection

If required to do so, the postholder will obtain, process and/or use information held on a computer or word processor in a fair and lawful way. The postholder will hold data only for the specified registered purpose and use or disclose data only to authorised persons or organisations as instructed in accordance with the Data Protection Act.

Health and safety

Employees must be aware of the responsibilities placed on them by the Health & Safety at Work Act (1974) and its amendments and by food hygiene legislation to ensure that the agreed safety procedures are carried out to maintain a safe condition for employees, patients and visitors.

Smoking policy (amend as appropriate)

The employing organisation has a policy that smoking is not allowed in the work place.

Equal opportunities policy

It is the aim of the employing organisation to ensure that no job applicant or employee receives less favourable treatment on grounds of gender, religion, race, colour, sexual orientation, nationality, ethnic or national origins or disability or is placed at a disadvantage by conditions or requirements which cannot be shown to be justifiable. To this end, there is an Equal Opportunities Policy in place and it is for each employee to contribute to its success.

CONSULTANT IN PUBLIC HEALTH /CONSULTANT IN PUBLIC HEALTH MEDICINE

PERSON SPECIFICATION

Haringey Council

Knowledge of methods of developing clinical quality assurance, quality improvement and evidence based clinical and/or public health practice	Х	
Understanding of social and political environment	Х	
Understanding of interfaces between health and social care	X	

Shortlisting notes

The Faculty of Public Health advises that in order to be shortlisted for a consultant post applicants who are not yet on the GMC Specialist Register/GDC Specialist List in dental public health/UK Public Health (Specialist) Register

(UKPHR) must provide verifiable signed documentary evidence that an application for inclusion on one of these specialist registers is in progress as follows:

1. Applicants in training grades

Public health Specialty Registrars in a recognised UK public health training scheme must provide evidence to confirm that they are within **SIX** months of award of their certificate of completion of training (CCT) and inclusion in the GMC Specialist Register/GDC Specialist List in dental public health/UKPHR for public health specialists at the date of interview (i.e. the expected date of award of their CCT must fall no more than six months after the date of interview). *Please note that from January 2005 in England, May 2005 in Scotland and November 2005 in Northern Ireland and Wales, this period has been extended from the three months required previously.* The documentary evidence should be:

Either a ARCP 6/RITA Form G (Final Record of Satisfactory Progress) *or* a letter from the postgraduate dean (or Faculty Adviser) specifying the expected date for completion of training (which must be not more than six months after the date of interview).

2. Applicants in non training grades

2.1 Doctors (i.e. medical practitioners)

Doctors outside recognised UK public health training schemes fall into a number of categories:

- those who have trained outside the UK, who may have specialist training and qualifications which they are seeking to have recognised by the General Medical Council (GMC) in order to gain registration with the GMC: these doctors may be shortlisted according to the following 2005 guidance from the Department of Health and Scottish Executive which indicates that There will be some instances (for example when considering applicants trained outside the UK) where an AAC may choose to interview a candidate prior to [GMC] Specialist Register entry. In these circumstances, it will wish to be satisfied that subsequent Specialist Register entry is likely. Employers should ask the applicant to provide documentary evidence that he/she has submitted an application to the GMC which is eligible for consideration at the time of application (for shortlisting).
- those who have not completed specialist training in the UK who are seeking entry to the GMC Specialist Register through the Certificate of Eligibility for Specialist Registration route (formerly Article 14 of the European Specialist Medical Qualifications Order (ESMQO)), which allows the GMC to consider not only training but also relevant experience: these doctors may have trained in or outside of the UK. Again, employers should ask the applicant to provide documentary evidence that he/she has submitted an application to the GMC which is eligible for consideration at the time of application (for shortlisting).
- 2.2 Applicants from a background other than medicine
 - Other than trainees (see 1 above), applicants from a background other than medicine would normally be expected to have gained full specialist registration with the UKPHR. However, exceptionally, individuals who can demonstrate that they have submitted a portfolio application to the UKPHR may be considered for shortlisting. Suitable evidence will be a letter from the UKPHR acknowledging receipt of the portfolio application.
 - Other than trainees (see 1 above), applicants from a background in public health dentistry must be included in the GDC Specialist List in dental public health. However, those who can demonstrate that they have submitted an application for inclusion on the GDC specialist list in public health dentistry may be considered for shortlisting. Employers should ask the applicant to provide documentary evidence that he/she has submitted an application to the GDC which is eligible for consideration at the time of application (for shortlisting).

Employers are advised that individuals should not take up consultant in public health medicine or consultant in public health posts (including DPH posts) until such point as they have gained entry to the GMC Specialist Register/GDC Specialist List in dental public health/UK Public Health (Specialist) Register. Although applicants will be able to provide documentary evidence that an application is in progress, no guarantee can be made as to the outcome of an application to the GMC/GDC/UKPHR specialist registers.

The above guidance applies to applications for both general and defined specialist registration with the UKPHR. Individuals with defined specialist registration are eligible for consideration for shortlisting for, and appointment to, consultant posts including those at DPH level. In all appointments, employers will wish to ensure that an applicant's areas of competence meet those required in the person specification.

The employee's duties require the following activities: -

	Yes		Yes
Office duties		Outdoor work / uneven surfaces	
Use of a computer	X	Working at heights / on ladders / roof work	
Audio typing		Confined spaces	
Potentially confrontational work		Outdoor work or extremes of temperature	
Crisis or conflict situations		Driving a Minibus as part of duties or as a volunteer	
Management responsibility		Driving car / van as part of duty	
Tight deadlines	Х	LGV / PSV driving	
Walking 1+ miles during working day		Operating lift-truck, digger or crane	
Use of stairs		Work with significant electrical hazards	
Regular manual handling of objects / furniture / equipment (please indicate kilos involved)		Operating potentially hazardous machinery	
Regular and repetitive movements		Exposure to potentially hazardous substances	
Awkward positions e.g. stooping, bending, reaching up		Chemicals, e.g. solvents or metal working fluids	
Sitting / Standing for prolonged periods		Noisy environment (over 80dB[A])	
Working alone or in isolation		Radiation	
Working shifts / unsocial hours / nights		Respiratory e.g. dust, fume, solder	
Risk of infection e.g. TB, Hep B / Other		Vibrating machinery	
Teaching or responsibility for children		Preparing raw food / serving food	
Control and restraint		Other
